Dificuldades

Durante o desenvolvimento do meu site, depareime com desafios significativos, destacando-se principalmente a parte de pôr o site responsivo e a implementação das animações nos botões. Adaptar o site para diferentes tamanhos de ecrã revelou-se uma tarefa complexa, exigindo uma atenção meticulosa aos detalhes para garantir uma experiência consistente para todos os utilizadores. Além disso, a incorporação de animações nos botões acrescentou uma camada adicional de complexidade.

Conclusão

Em síntese, a realização deste site representou um desafio significativo, tendo em vista a sua importância para a criação da minha PAP. Ao longo do processo, foquei-me na adaptação para uma versão responsiva e na introdução de animações nos botões. O desenvolvimento deste projeto não só testou as minhas habilidades, mas também contribuiu para o aprimoramento do meu conhecimento em web design. Estou confiante de que esta experiência será valiosa no contexto da minha formação profissional.
